PAGE THREE

The completion and mailing of this form does not constitute any type of contractual arrangement. It is for the sole purpose of exploring a possible collaboration or contracting with CIC for its services. We analyze the potential of the described technology/product and determine if we may be of service in either the process of commercialization, or refer you to another organization or individual.

There is absolutely no cost involved in the filing of this document, and no fees or charges for an initial preliminary technology/product interpretation by CIC. Since the demand upon our time is critical, and the obligations to our clients priority, we must look at any and all new opportunities to determine our potential interest and possible collaboration, both for your benefit and ours.

If you have any questions, please feel free to contact:
